Dear Ms. Fleming;

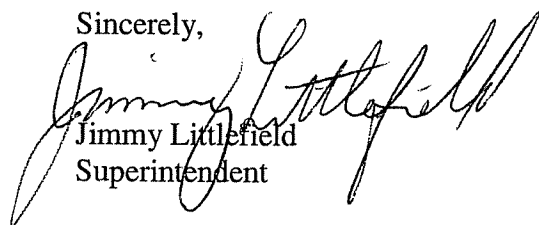

On behalf of Spartanburg District One Schools, I request that you and the Public Service Commission of S.C. consider reviewing the local telephone service coverage area of the three local towns to include: Inman, Campobello and Landrum.

Spartanburg District One has schools located in the Inman area (approximately 5 miles southwest of Campobello (District Office); in the Landrum area (approximately 5 miles northeast of Campobello (District Office) and have one elementary school, Campobello Elementary, (approximately one mile from our District Office). Although there is a short distance between all of our schools and our Administrative Offices, in order for our schools to communicate by telephone with each other and to our District Office and vice versa, it requires two telephone lines (a Landrum telephone exchange (864 - 468-4542) and Inman (864 -472-2846) to avoid long distances telephone charges.

The three local towns have discussed providing service to the entire area for years and now since the company has been sold to Windstream, we feel once again, it is time to review the local telephone service coverage area. We feel that by consolidating these three service areas, would not only benefit our schools, but the local communities as well.

If you have any questions, please don't hesitate to contact me at (864) 472-2846.

Sincerely,

 Jimmy Littlefield
 Superintendent
